# DRIVEFORCE™

## silicone inductive core ignition leads

DriveForce silicone ignition leads are your guarantee in supplying maximum energy to your vehicles ignition system.

DriveForce ignition leads utilise the latest technology in construction and design to ensure your vehicle operates at peak performance under extreme conditions.

featuring  
**ultra-max™**  
high-temperature  
silicone

A high intensity, quicker, brighter spark is the result, ensuring easier starting, better idle quality, improved throttle response and increased power and torque.

DriveForce is a proudly Australian owned company.

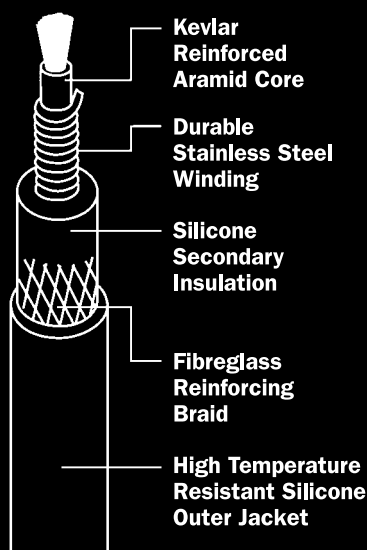

For more information, visit the DriveForce website:

[www.driveforce.net.au](http://www.driveforce.net.au)

### FEATURES:

- 300° high-temp resistance
- High-grade 100% silicone extruded construction
- Inductive core technology
- High dielectric strength, prevents voltage leaks
- LPG or petrol applications
- High temperature resistant boots
- Greater engine responsiveness and increased fuel efficiency
- Exceeds international standards
- Direct OEM replacement - OBD-11 computer safe

## LPG COMPATIBLE

NOTE: CONTENTS OF THIS KIT AND MATERIALS USED MAY VARY FROM ALL ILLUSTRATIONS AT THE MANUFACTURERS DISCRETION.
